

10MWh Smart Photovoltaic Energy Storage Container for Drilling Sites

Overview

This is the first 10MWh single-container solution in the industry. With a volumetric energy density of 146Wh/L, its modular architecture enables scalability for GWh-level utility-scale energy storage projects. The standardized 40ft container system can be configured with 1MW 2MW energy storage system. This high-capacity battery solution ensures reliable energy storage, allowing you to harness and store surplus solar energy for use during periods of. Internally integrates a high-efficiency liquid cooling and liquid heating system. Insert the solar panel terminals into the "SOLA RINPUT" Port charging.
