

# 1MWh Off-Grid Solar Storage Unit in Africa

## Overview

---

Discover how Namkoo's best energy storage systems deliver 24/7 power in remote Central Africa. 360kW solar + 1MWh lithium battery solution for critical operations. This was the reality for a Central African infrastructure team – until Namkoo's latest 20ft ESS container arrived. The solution is built around BRES containerized energy storage systems with almost 1MWh of lithium-ion battery capacity and a 500 kW PCS, seamlessly integrated with the supermarket's rooftop solar. LondianESS, a leader in advanced energy storage, provides customized off-grid solar battery solutions tailored to Africa's unique challenges—harsh climates, unreliable grids, and rising energy demands. Energy Poverty & Grid Limitations Over 40% of Africa's population lacks. As a result, off-grid solar systems have emerged as a critical solution, leveraging renewable energy, decentralized deployment, and low maintenance requirements to become a cornerstone of Africa's-and the world's-energy transition.
