

2MWh Mobile Energy Storage Container for Chemical Plants

Overview

They integrate lithium batteries, PCS, transformer, air conditioning system, and fire protection system within a single container, offering a comprehensive plug-and-play solution for large-scale power storage needs. Polinovel utility scale energy storage battery system incorporates top-grade LiFePO4 battery cells with long life, good consistency and superior charging and discharging performance. With 95% efficiency, modular design, and seamless integration with renewable energy sources, this system enhances grid stability. Adopts All-in-One design and integrates battery modules, intelligent Power Conversion System (PCS), Power Distribution Unit (PDU), Liquid cooling system, Temperature Control System (TCS), and intelligent Monitoring System (IMS) by one-stop in the container of international standard size. Module. The Mobile Energy Storage Truck, is a cutting-edge solution in the field of energy storage. With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new energy vehicle charging guns, it allows for fast charging and extended power. Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy generation, PV self-consumption, off-grid applications, peak shaving, and emergency backup power. BESS related products are useful for a wide range of applications which covers commercial.
