

60kW Solar-Powered Container Terminal at Timbu Port

60kW Solar-Powered Container Terminal at Timbu Port

[How Solar Power is Transforming Logistics at ...](#)

Discover how solar power is revolutionizing the logistics industry at Mindanao Container Terminal, and the impact it has on sustainability and efficiency.

[Mindanao Container Terminal runs solely on solar power by day](#)

Mindanao Container Terminal runs entirely on solar power by day. Explore how this innovation leads the way in sustainable logistics!

[Mindanao Container Terminal gets powered by the sun](#)

The Mindanao Container Terminal (MCT) in the Philippines has started operating exclusively on solar power during daylight hours.

[ICTSI's Mindanao Terminal Adopts Solar Power for Daytime Operations](#)

ICTSI's Mindanao Container Terminal in Cagayan de Oro now runs on solar energy during the day, thanks to a contract with PrimeRES Energy Corp. This shift aligns with ICTSI's sustainability goals and ...

[Mindanao Container Terminal increases renewable energy utilization](#)

At night, the terminal will draw power from PrimeRES'es supply portfolio including the Wholesale Electricity Spot Market (WESM), ensuring 24/7 energy supply. This hybrid solution maximizes the use of ...

[Mindanao Container Terminal Transitions to Solar Power for Daytime](#)

The Mindanao Container Terminal (MCT), operated by International Container Terminal Services Inc. (ICTSI) in the Philippines, has transitioned to solar power for daytime operations as part of its broader ...

[Mindanao Container Terminal switches to solar power for daytime](#)

The Mindanao Container Terminal (MCT) has transitioned to solar power for daytime operations, reinforcing its commitment to sustainability and reducing its carbon footprint.

Mindanao Container Terminal operates on solar power during daytime

Mindanao Container Terminal (MCT) has begun using solar power exclusively during daylight hours as part of its sustainability initiatives.

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

ICTSI's Mindanao Container Terminal shifts to solar power

During the day, the terminal runs on solar power generated by PrimeRES, while at night, it draws electricity from PrimeRES's broader supply portfolio, including the Wholesale Electricity Spot Market (WESM).
