

Are the photovoltaic panels in the villa illegal

Overview

However, in general, solar panels are not illegal and most states have laws in place that protect a homeowner's right to install them. There are a few states where HOAs may still prohibit or restrict solar panels, but this is generally not the case. Most states allow homeowners to install solar panels themselves, provided they obtain proper permits, follow local building codes, and pass required inspections. However, any. Using the sun's raw energy, you power your home and sell electricity to utility companies. Homeowners associations have been a historic friction point. They vary by state and aren't uniform nationwide.
