

Atlantic Electric Energy Storage System

Highvoltage Battery

Overview

Atlantic Energy Storage aims at reducing the number of lithium-ion batteries that are being added to landfills by repurposing these batteries for stationary energy services. Atlantic City Electric is poised to. y impact to the community. C 7:29 Noise Control requirements set forth by the New Jersey Administrative Code as well as the Borough of Beach Island's energy grid. By placing the facility at our existing site, we can also minimize significant. As part of our broader strategic effort to better serve our customers and build a smarter, stronger and cleaner energy grid, we are installing a battery storage system to enhance energy service for our customers in Beach Haven and Long Beach Island. This project will improve the reliability and quality.
