

Boston New Energy Storage Power

Overview

Spearheaded by Jupiter Power, this 700-megawatt lithium-ion battery farm is set to be the largest of its kind in New England, contributing to regional energy stability and creating numerous job opportunities. State officials say more of these batteries will bring down utility bills, make the grid more reliable and enable the. Massachusetts is taking significant strides towards energy independence with the ambitious Trimount battery storage project in Everett.

Boston New Energy Storage Power

[Flatiron Energy wins approval for 300-MW battery in Massachusetts](#)

ISO New England has given the thumbs up to a project proposed by Flatiron Energy and envisaging the installation of a 300-MW/1,200-MWh battery energy storage system (BESS) in Boston, ...

[Mass. wants to build big battery farms to store energy](#)

A \$1 billion-plus battery farm big enough to power 500,000 homes for four hours could start going up as soon as the end of next year in Everett, now that it's one of four winners in a state
