British solar awning manufacturers

Overview

In addition to our own systems, we can offer products from Luxaflex, Silent Gliss, Faber, Weinor, Louvolite, Velux and MechoShade. Solar Tree is delivered by a team with more than five decades of proven expertise across construction, renewable energy, infrastructure and real estate asset development. We understand what it takes to move complex projects from concept to completion, and we bring that multi-disciplinary expertise. BIPV solutions include cladding, forecourt canopies, parking structures, transport hubs and so much more. Our transparent solar glass panels are available in various transparencies allowing light in whilst providing clean solar energy. Ideal for keeping cool on those hot days and, at the same time, protecting furnishings from the UV rays. 'The project was swift and easy to manage; the whole team were extremely easy to work with and understood the challenges of projects such as these in. We manufacture, supply and install our modular system of components that can be configured for many uses, be they solar shading, architectural or security screening Our friendly knowledgeable team is here to help. We have four canopy frames which can be paired with most solar panels.
