

Building Photovoltaic Panels Apprentice

Overview

Read our Registered Apprenticeship Toolkit for Clean Energy Employers to go through the process step by step. Recognizing this growing need, the U. What are. SEIA developed this page as resource for solar employers looking to explore, develop, or participate in registered apprenticeship programs. Apprenticeship programs offer many. Nearly two and a half years after the Inflation Reduction Act of 2022 (IRA) became law, developers and contractors continue to adjust to the new normal for renewable energy projects: compliance with prevailing wage and apprenticeship requirements. Training can take many forms based on the target audience and topic area, such as a high school career technical education (CTE) program, an undergraduate or graduate degree. That's where a registered apprenticeship program (RAP) comes in, an approach clean energy sector employers have typically underutilized. ApprenticeshipsUSA describes.
