

# Burkina faso renewable energy storage

## Overview

---

The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar and battery storage system. The aim is to increase access to clean energy by improve rate of 8. As the country strives to diversify its energy sources and reduce its dependence on fossil fuels, storage systems, particularly increase by over 40% annually from 2020 until 2025. With liquified petroleum gas (LPG) company Sodigaz, the IFC seeks to. Operational since March 2024, this 137MWh lithium-ion facility isn't just another battery project - it's solving three massive problems simultaneously: Wait, no - let's backtrack. Burkina Faso actually receives 3,000 hours of annual sunshine, but until recently, only 12% of installed solar capacity.
