

Burundi 2025 energy storage power station project

SUPPORT REAL-TIME ONLINE
MONITORING OF SYSTEM STATUS

Overview

Burundi's first grid-scale lithium-ion storage system (20MW/80MWh) came online in Q1 2025, stabilizing voltage for 400,000 households. These aren't just oversized phone batteries - we're talking about: Imagine if these systems could pay for themselves within 5 years through peak. The President of the Republic of Burundi today officially inaugurated the Jiji hydroelectric power plant, in the presence of a large delegation of national authorities and representatives of the development partners that co-financed the project. Located in Bururi province, this large-scale. ve challenges of the power sector in the country that could electrify all Burundian facilities. "We expect the station to be ready by November 2021 as I's local subsidiary Gigawatt Global Burundi SA. Our portfolio company, Anzana Electric Group, has raised US\$35m in debt funding from Trade and Development Bank Group (TDB) for two hydropower projects in Burundi. The deal represents Burundi's largest long-term project financing and will play a vital role in a country where only 12% of the.
