Looking for a Shaft Generator for your ship?

Check out the price list at Jiangyin Nangong Forging Co. Shaft generators on board ships are driven by the main engine to supply power to the mains. The mains have to be supplied with constant voltage and frequency. VEICHI Electric's AC800 shaft generator liquid-cooled drive system solution has been successfully applied to a 176,000 DWT bulk carrier shaft generator project, demonstrating excellent performance during shore-power commissioning and sea trials. With a. tallations. Our engineering, commissioning and technical support teams are ready to support your project from sta d in table).

## Cabinet ship shaft generator price

### HYBRID SHAFT

The Hybrid Shaft Generator (HSG) drive provides electrical power to the vessel's main switchboard by converting variable voltage and frequency input to fixed voltage and frequency output.

### Shaft generator for the marine industry

Semi-Through Shaft Generator: High mechanical transmission efficiency and suitable for both new and older vessels, but the manufacturing process is more complex and costly. Explore the application area. Do you ...

### High-Quality Shaft Generator Ship Pricelist

Looking for a Shaft Generator for your ship? Check out the price list at Jiangyin Nangong Forging Co., Ltd. for top-quality products. Order now!

### VEICHI AC800 Shaft Generator Liquid-Cooled Drive System Solution

The shaft generator liquid-cooled drive cabinet can supply a rated 850kW to the ship network and is capable of stable operation in island mode at startup, reducing or even eliminating reliance on diesel generators and ...

### Shaft Generator

A Shaft Generator is a mechanical device that are integrated into a ship's propulsion system to convert mechanical energy into electrical energy. It is connected to the main shaft of a ship and uses the redundant ...

### Shaft Generator

Shaft Generator The shaft generator is used to transfer the rotary motion / rotary power of the propelling engine to the propeller and to absorb the propeller thrust and its transfer to the hull. The shaft position can consist of ...

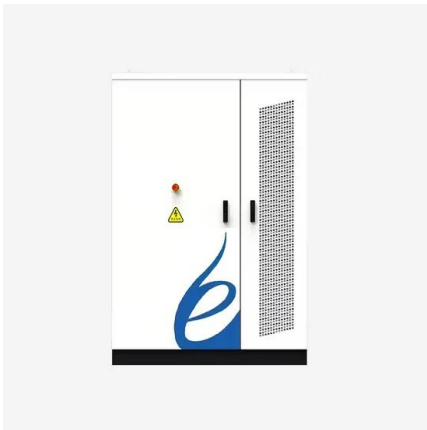

### PTO Shaft Generator for Economical Ship Operations

This solution enables the operation of propulsion machinery in combinator mode - variable speed and pitch of the propeller - with the Shaft Generator online and generating power for the ship's electrical network.

## Wärtsilä Shaft Generator

Wärtsilä has successfully delivered over 1000 shaft generator systems, further underlining our position as the world leader in this industry. Shaft generators on board ships are driven by the main engine to supply power ...

## **Shaft generators**

We design and manufacture low voltage generators up to 6300 amps and high voltage up to 15kV and suitable for connecting to frequency converters and diode rectifiers. It can be used as " Take Me Home " motor in ...

## Wide range of shaft generators

With those different technologies at hand and our experience in the marine industry, we will design and build the best fitting package for your ship. The IFPS® is a rugged and compact solution which is easily connected to ...
