

# Can a battery cabinet be equipped with a mobile power supply

## Overview

---

Yes, a portable power station can function as a battery backup. Cabinet-type lithium battery is an energy storage device or power supply device designed in the form of a cabinet with lithium-ion battery as the core. It is usually designed to meet the energy storage needs of commercial, industrial or domestic, or as part of the UPS (uninterruptible power supply). HindlePower's battery enclosures and trailers are engineered systems the user can build upon and customize to meet their utilities' specific needs. The HindlePower Battery Cabinet is an outdoor enclosure with a primary intent to hold batteries and protect them from the elements.
