

Can lithium batteries be used with inverters in Auckland New Zealand

Overview

At Vanlifer, we install advanced LiFePO₄ lithium batteries from trusted brands like Victron Energy, Enerdrive, and Renogy. Each installation is tested, safe, and designed to integrate with your solar, inverter, and 12 V systems while meeting New Zealand's Green Warrant and electrical standards. Why. It's important to note that the more recent AS-NZS 3000:2023 Parts 1 & 2 is not yet ratified in New Zealand and, therefore, doesn't apply to our operations. While the AS-NZS 3000:2023 standard is in use in Australia, its regulations, particularly those concerning the storage and location of lead. Not all Victron products are on our website, email us with what you are looking for. Note: All Victron orders ship from Auckland. They have a long lifespan, high usable capacity, and fast charging speed. You can use them to replace lead-acid batteries and get reliable power for leisure and recreational use.
