

Chad wall-mounted energy storage lithium battery manufacturer

Overview

Supported by RelyEZ Energy Storage, the Chad solar energy storage project features a 2MW photovoltaic power generation system, a 500kW diesel generator, and a 6. The system consists of 20 5kWh wall-mounted lithium iron phosphate batteries, ensuring efficient and stable power storage and supply, and meeting the local demand for a reliable power system. Ideal for durable energy storage needs. Our production sites are well equipped to support the full process requirements from research and development to series.
