

China solar powered generator in Cairo

WORKING PRINCIPLE

Overview

The project, which includes 1GW of photovoltaic power generation and 600MWh energy storage system, with a total investment of about US\$600 million (about 4.366 billion yuan), is not only another major breakthrough for Chinese new energy enterprises in the international market. Egypt's Electricity Minister Mahmoud Essmat meets officials from China Energy in Cairo on Sunday, Aug (Egyptian Ministry of Electricity Photo) Egypt's electricity minister on Sunday held talks with China Energy Overseas Investment Company (CEECOIC) on plans to boost cooperation in. CAIRO - 29 May 2025: Construction of the 500-megawatt Kom Ombo solar power plant project in Egypt has been completed, Chinese Ambassador to Cairo Liao Liqiang announced Thursday. Kom Ombo solar power plant is the largest solar photovoltaic plant of its kind in Egypt, built by China Energy. A new agreement signed between the Chinese group and Egyptian government officials is part of the country's Green Corridor Initiative that aims to increase the use of renewable energy. The solar project is expected to save more than \$1 billion in annual natural gas costs.
