

Close-up of solar photovoltaic panels

Overview

Close up of man technician in work gloves installing stand-alone photovoltaic solar panel system under beautiful blue sky with clouds. Concept of alternative energy and power sustainable resources. This panel, or module, is made up of PV cells. RM W4PGM5 - Close-up of solar photovoltaic panels from solar company Renogy, being installed as part of a residential off-grid solar system, in bright sunlight, San Ramon. Solar photovoltaics (PV) is a very modular technology that can be manufactured in large plants, which creates economies of scale, but can also be deployed in very small quantities at a time. Made with chemicals safer for human health and the environment. Learn more Need help?
