

Container generator set outgoing line

Overview

Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by road or rail worldwide. The larger footprint of these units allows for more versatility from a manufacturing specification standpoint — we can easily equip your gen set with greater levels of sound. Factory pre-integrated and customizable per site requirements, the new Cummins Power Generation Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design. Developed in-house based on our legacy of ELCOS offers the possibility of installing power generators inside CONTAINERS Iso Range 20/20HC' - 30/30HC' - 40/40 HC' according to the customer's requirements. All the CONTAINERS can be silenced up to 50 dB (A) @ 7m. On request, it is also possible to provide the RINA certification. Moreover. With the optional Qc4003TM controller, two or more QEC units can be put into parallel.
