

Daqing Township Solar Power Generation

Daqing Township Solar Power Generation

[PV testing center sheds light on next-generation generation](#)

From atop a 40-meter monitoring tower in Daqing in northeast China's Heilongjiang Province, a vast field of photovoltaic panels can be seen, shimmering toward the horizon.

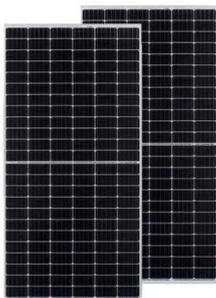

[Water surface photovoltaic power station of Daqing Oilfield](#)

This power station has an installed capacity of 18.73 megawatts, and its average annual electricity generation is equivalent to that produced by burning 8400 tonnes of standard coal, which ...

[Daqing Oilfield's renewable energy power generation exceeds 300 ...](#)

The Pioneer Photovoltaic Power Station located in the South Trinity area of the plant has been successfully connected to the grid to generate electricity, marking a solid step in the application ...

[Application of Solar Photovoltaic Power Generation Technology in Daqing](#)

After entering the new era, Daqing Oilfield adheres to the scientific concept of development as the basis, and strives to achieve sustainable development, building solar photovoltaic power generation.

 LFP 48V 100Ah

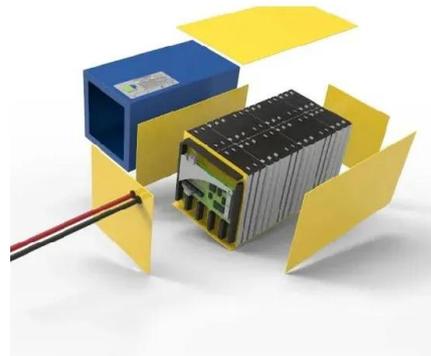

[Water surface photovoltaic power station of Daqing Oilfield](#)

This aerial photo taken on Sept. 19, 2023 shows the Xinghuo water surface photovoltaic power station of Daqing Oilfield under PetroChina in Daqing, northeast China's Heilongjiang Province.

[DAQING OILFIELD FLOATING PHOTOVOLTAIC PROJECT](#)

Since it was connected to the grid for power generation on June 30 last year, the power station has been operating smoothly, and all indicators and parameters have met the design ...

[Water surface photovoltaic power station provides clean energy for](#)

This aerial photo taken on Sept. 19, 2023 shows the Xinghuo water surface photovoltaic power station of Daqing Oilfield under PetroChina in Daqing, northeast China's Heilongjiang Province.

[Power plant profile: Daqing Oilfield Xinghuo Solar PV Plant, China](#)

Daqing Oilfield Xinghuo Solar PV Plant is a floating solar project which is spread over an area of 400,000 square meters. The project generates 27,500MWh electricity thereby offsetting 22,000t of ...

[PetroChina's first surface photovoltaic project generates more than 10](#)

In recent years, Daqing Oilfield has focused on building a green industrial structure and a low-carbon energy supply system, and vigorously promoted the development of new energy ...
