

Do photovoltaic panels still need to be dusted

Overview

If you're wondering, "Do solar panels need to be cleaned?"

" the short answer is yes. Over time, dust, dirt, pollen, bird droppings, and other debris can accumulate on the surface of your panels. This buildup can block sunlight and reduce the efficiency of your system. Within solar energy circles, cleaning solar panels is a hot topic of debate: should you or shouldn't you?

While some suggest that regularly washing panels is necessary to get the maximum solar conversion possible. Dust: If your PV panels are installed near industrial facilities, airports, factories, or main roads, you may. Solar panels are pretty hands-off once installed, but like any system, they still require periodic upkeep. Need solar service?
