

Does the solar power generation system require bis certification

Overview

To ensure that solar equipment meets minimal safety and result standards, the Bureau of Indian Standards (BIS) has made certification compulsory under its compulsory registration scheme (CRS). Whether you are a domestic manufacturer or importer, BIS registration is non-parasitic. For manufacturers, BIS registration for solar panels is not just a legal requirement but also a. The BIS registration is crucial for manufacturers and suppliers, as it guarantees compliance with established Indian standards and ensures the reliability of solar products in the market.

Does the solar power generation system require bis certification

BIS Registration of Solar Panels

To protect consumers and project developers, the Ministry of New and Renewable Energy (MNRE) made BIS certification mandatory. It ensures that every panel installed in India meets strict safety ...

BIS Registration of Solar Panels

BIS registration under the Compulsory Registration Scheme (CRS) is mandatory for certain electronic and solar energy products, including solar photovoltaic (PV) modules, panels, and systems.

BIS Certification for Solar

To ensure that solar equipment meets minimal safety and result standards, the Bureau of Indian Standards (BIS) has made certification compulsory under its compulsory registration scheme (CRS).

BIS Certified for Solar Products

The Ministry of New and Renewable Energy (MNRE) and BIS have released new mandatory standards under the Solar Systems, Devices & Components Goods Order, 2025. From J, only ...

BIS Certification For Solar Panels: Process & Benefits

BIS certification for solar panels is a must . It's part of the Compulsory Registration Scheme (CRS) run by the Bureau of Indian Standards (BIS). This certification checks if solar panels ...

BIS Certification for Solar Panels

Every manufacturer or importer of solar photovoltaic modules--whether operating domestically or internationally--must obtain BIS registration for solar panels before selling or ...

Support Customized Product

Products under Compulsory Certification

For such products, the Central Government directs mandatory use of Standard Mark under a Licence or Certificate of Conformity (CoC) from BIS through issuance of QCOs.

[New BIS Standards for Solar Products: Solar Systems, Devices and](#)

It requires these products to meet specific Indian Standards and affix a special mark indicating that they are certified. Efficiency even sets a boundary that defines how productive solar ...

[BIS Registration for Solar Photovoltaic Systems, Devices and ...](#)

Solar PV modules, inverters, and storage batteries must comply with the latest Indian Standards (as specified by BIS) and carry the Standard Mark under a BIS license.

[BIS Registration Process for Solar Devices & Components Explained](#)

Solar components registered with BIS will guarantee that the products are safe, high-quality, and meet Indian standards. Both domestic and international firms must adhere to BIS ...
