

EK SOLAR new solar container outdoor power

Overview

EK-SG-R01 is a large outdoor base station with large capacity and modular design. This series of products can integrate photovoltaic and wind clean energy, energy storage batteries, and configure a 6U integrated hybrid power system with an output DC48V (configured with a remote. While increasing the power generation power, this module maximizes container transportation efficiency through innovative layout design, significantly reduces logistics costs, and injects new vitality into the overall economic improvement of photovoltaic projects. Reduced Cost ● Integrated energy. From portable units to large-scale structures, these self-contained systems offer customizable solutions for generating and storing solar power. In this guide, we'll explore the components, working principle, advantages, applications, and future trends of solar energy containers. Camp off grid for a long weekend with this complete solar kit for your RV. 4 lbs, it's easy to transport and compatible with various power stations. Fast deployment in all climates.
