

# Electric vehicle policy khartoum

## Overview

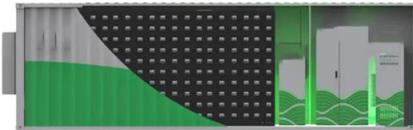

---

Government Support: Sudan has exempted fully electric cars from VAT and customs duties, but charging infrastructure is still limited to urban areas like Khartoum. Affordable Models: Budget-friendly options include the LINGBOX UNI (\$4,800) and GEELY PANDA MINI BASE (\$5,880). If you're considering buying an electric car in Sudan, here's what you need to know in 2025: Key Highlights: Why Go Electric?

Electric vehicles (EVs) are cheaper to run compared to gas-powered cars. It summarises current measures as well as announced targets and ambitions by region and country. These policies and electric vehicle (EV) policy began in 2016-2017. A major milestone was achieved in 2019 with the draft of the National Electric Vehicle Policy, officially launched in 2020. This policy set ambitious targets for EV adoption and included various incentives for manufacturers, like one percent custom. This report explores evidence from several key countries regarding the impacts to electric vehicle (EV) market penetration from financial incentives, road access policies, EV mandates, fuel taxes, discounted electricity rates, charging infrastructure, and government investment in the domestic. This policy document is intended to serve as a guidance note for relevant authorities and entities in Pakistan regarding the adoption of Electric Vehicles (EVs).
