

Electrical Backup Uninterruptible Power Supply

Overview

An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator, it does not need to power up in order to start generating. But if you want to keep your home Wi-Fi network and some other key electronics up and running in the event of an outage, an uninterruptible power supply, or UPS, is worth the investment. Runtime at Full Load Shop Newegg's reliable Battery Backup (UPS) to ensure uninterrupted power during outages—prevent downtime, safeguard data, and protect equipment from surges & damage ! .
