

# Electricity policy portugal

## Overview

---

The National Energy and Climate Plan 2030 (PNEC 2030) is Portugal's main energy and climate policy instrument for the decade 2021-2030. Portugal is committed to achieving carbon neutrality by 2050, as a contribution to the global and European goals assumed in the implementation of the Paris Agreement. Accomplishing this goal implies reducing greenhouse gas emissions by more than 85%, compared to 2005, and ensuring a carbon. Portugal's electricity supply is split between renewables (mostly wind and hydro) and fossil fuels (mostly natural gas and coal). In 2000, 85% of. ium term and its original draft was delivered in 2019. It is in line with international.
