

Energy company uses latest 1MW photovoltaic container

Overview

Atlas Copco has launched its largest container energy storage system (ESS) in the prime power market - the ZBC 1000-1200 - which delivers 1MW of power output and 1.2MWh energy capacity from a single unit. The new ZBC 1000-1200 is built using the same advanced and trusted battery technology as Atlas. Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single container or separated based upon site conditions. The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency. We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. For installation manual, technical datasheet, inverter.
