

Equipped with flat solar panel bracket

Overview

Suitable for any flat surface, this solar mounting system helps to optimize performance by tilt-positioning the solar panels while stationary, and then repositioning to flat while the vehicle is in the motion. Adding solar to a flat roof has built-in complexity and requires a wide array of options to meet the building requirements—such as a mechanically attached system, a ballasted system, or even a hybrid system. An attached system that utilizes Aire Rails or XR Rails to support a wide range of solar. IntegraRack specializes in ballasted solar panel racking solutions with sun angle options from 5 degrees all the way up to 45 degrees. IntegraRack products are extremely fast, high quality, and user friendly, making them the perfect choice for DIY, residential and even large scale solar farms. With the COMPACTFLAT S system, we revolutionized the world of PV substructures. Our residential flat-roof solar systems can be mounted flush or tilted up to accommodate any residential flat-roof solar system design. The FastJack Standoff 3" provides 3.
