

Georgia Energy Storage New Energy Magnetic Pump

Overview

As a part of an All-Source Request for Proposals (RFP), Georgia Power is currently seeking approval from the Georgia PSC of 10 new BESS facilities with a total capacity of 3,022.5 MW and two new state-of-the-art solar systems paired with BESS totaling 350 MW. Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties. The proposal, outlined in filings Thursday, aims to meet the growing energy demands of the state.
