

Germany's latest energy storage project

Overview

Germany is set to host Europe's largest battery energy storage project, with a new grid-scale facility planned for the Lusatia region. The project is being developed by Fluence Energy, a U. The. Eco Stor says construction has begun on a 300 MW/714 MWh battery storage facility in Förderstedt, Saxony-Anhalt, now the largest such project under development in Germany. This was the strongest year of BESS buildout the market has seen, nearly doubling 2024's deployment. Energy capacity grew even faster in percentage terms, rising by 1. It will be situated northeast of the Emsland gas-fired power plant on the former site of the Dralon acrylic fibre factory According to RWE, the.
