

Guinea Communication Power Supply Cabinet 40kWh Specifications and Models

Overview

The 40KWh Outdoor Photovoltaic Energy Cabinet is designed to provide reliable power supply for telecom base stations in various climates and environments, ensuring uninterrupted operations even during grid outages. It converts the direct current generated by photovoltaic modules into alternating current and realizes functions such as electric energy storage. Indoor Photovoltaic Energy Cabinet is an integrated device of photovoltaic power generation system installed in the communication base station room. □□- Flexible Configuration: 10-40kWh capacities, modular design for diverse needs.
