

# Home energy storage subsidies in Aarhus Denmark

## Overview

---

Are there grants for solar battery storage?

Yes! The Danish Energy Agency offers €300–€500 per kWh for certified storage systems until 2025. Can I sell excess solar energy back to the grid?

Absolutely. 12 per kWh for surplus electricity through net. Denmark now offers the EU's highest government subsidies for home energy storage – up to 60% system cost coverage. With Danish households paying €0.45/kWh for electricity (30% above EU average), smart homeowners are combining solar panels and batteries to slash bills. But how exactly do these. Therefore, a political decision has been made to establish three subsidy funds to support the deployment of CCS technology in Denmark and to deliver greenhouse gas reductions by 2030 and 2050 to contribute to the achievement of Danish and international climate goals. These subsidy funds are. Executive Order on Subsidies for Energy Savings and Energy Efficiency Improvements Within the Building Fund, DEA offers a support scheme that aims to reduce energy consumption and convert the heating supply in dwellings in Denmark. Among other energy renovations, the scheme supports conversion to. In autumn 2024 two draft regulations were published regarding state aid for large-scale electricity storage systems (BESS), one from the Modernisation Fund (“MF”) 1 - and the second under the National Recovery and Resilience Plan (“RRP”) 2. Commercial installations typically cost 15–20% less per kW due to economies of scale.
