

# How to remove the white film on photovoltaic panels

## Overview

---

The Gentle Heating Method is an effective and safe way to remove the plastic film from a solar panel by softening the adhesive underneath. We will cover various cleaning techniques, the tools you'll need, and some tips to ensure you do it safely and effectively. If the film is stubborn or adhesive, use a mild solution of soapy water or isopropyl alcohol applied sparingly to loosen it, followed by a soft cloth to wipe away any remaining adhesive. This film is designed to protect the panels during shipping and handling, but it can also reduce the efficiency of the panels and prevent them from charging properly.

## How to remove the white film on photovoltaic panels
