

# Huawei solar container battery panel auxiliary materials

## Overview

---

Huawei will equip the project with an energy storage container battery system and auxiliary components, a battery management system, a power conversion system, and an energy management system. When selecting a solar panel battery system from Huawei, the best choice for most homeowners seeking reliable off-grid or backup power is the Huawei Luna 2000 series paired with their SmartString technology. Made to work with photovoltaic systems, Huawei storage units combine high end technology, modular flexibility, and. The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4. The project has commenced in November 2024.
