

Hungary new solar module project

Overview

Located in northern Hungary, the 450-Megawatt project will deploy nearly 700,000 modules from LONGi's ultra-efficient Hi-MO9 product series. The plant also expands Solarpro's collaboration with LONGi, following a 176 MW solar park they partnered on last year in. BUDAPEST, Hungary, Dec. The Europe-based engineering, procurement and construction and. Budapest, Hungary, 15 December — European leading EPC and O&M contractor of PV and BESS systems Solarpro is building what will be the largest solar power plant in Hungary, using photovoltaic modules from industry leader LONGi.

Hungary new solar module project

[Solarpro picks LONGi modules for 450-MWp Hungarian solar farm](#)

Solar and storage EPC contractor Solarpro, part of Vienna-based clean energy investor Renalfa Solarpro Group GmbH, has selected China-based LONGi to supply the modules for a 450 ...

[Hungary to host 450 MW solar plant using back-contact modules](#)

Solarpro is building a 450 MW solar power plant in Heves county, Hungary. The company said it will be the country's largest PV facility.

[Solarpro inaugurates 450 MW solar power plant with LONGi modules ...](#)

Solarpro commissions Hungary's largest photovoltaic plant using 700,000 advanced modules supplied by LONGi, with an expected annual output of 470 GWh.

[Hungary Sets New Benchmark With 450 Mw Solar Plant Featuring ...](#)

Hungary is on the verge of a renewable energy milestone with the construction of a 450 MW solar power plant in Heves county, spearheaded by Solarpro, an engineering, procurement, and ...

[Solarpro builds Hungary's largest solar plant with advanced new tech](#)

BUDAPEST, Hungary, Dec. 18, 2025 /PRNewswire/ -- Leading European contractor of photovoltaics and energy storage systems Solarpro is building what will be the largest solar power plant in

[Solarpro Chooses LONGi Modules for 450 MWp Solar Project in Hungary](#)

The Central European solar market continues to scale rapidly as Solarpro, a leading EPC contractor and part of the Renalfa Solarpro Group, has confirmed the selection of LONGi Solar ...

[Solarpro Breaks Ground on 450 MW Solar Project in Hungary](#)

Hungary is set to host its largest solar power project to date, as Solarpro moves ahead with the construction of a 450-megawatt photovoltaic plant in Heves county in the north of the country.

[Hungary solar plant: Impressive 2024 Project Announced](#)

This ambitious undertaking will be powered by nearly 700,000 state-of-the-art solar modules from industry leader LONGi, marking a significant step forward in Hungary's green energy ...
