

Income from solar power generation on the community roof

Overview

You can make money from solar power by selling excess electricity back to the grid through net metering, earning solar renewable energy certificates (SRECs), leasing your rooftop to solar companies, and investing in or developing solar farms. Residential rooftop solar projects often only benefit the households who live under the array — but community solar projects can reach beyond the property where a project is located, impacting many more customers who otherwise might have a hard time accessing renewable power. Here, we explain how. The U. In most cases, customers benefit from energy generated by solar. The Inflation Reduction Act (IRA) of 2022 creates new ways for nonprofit organizations to deliver low-cost solar arrays to low-income families. The following case study charts the efforts of Solar United Neighbors and One Roof Community Housing to use the new “Direct Pay” provisions in the IRA to. The California Public Utilities Commission (CPUC) and other agencies under the California state government offer programs that allow income-qualified residential customers to receive financial assistance on solar panel installations, battery installations, and energy efficiency efforts. Potential. Community solar programs, sometimes known as 'shared solar' or 'solar gardens,' can help address both the physical and financial barriers of going solar.
