

# India subsidizes solar inverters

## Overview

---

New government schemes offer attractive subsidies, including grants for systems up to 2 kW and incentives that address cost recovery challenges in the distribution network. The Indian government has allocated a substantial Rs. Basic Customs Duty (BCD) has been imposed on the import of solar PV cells and modules, incentivizing local. The details of incentives being provided as Central Financial Assistance (CFA) for the implementation of major renewable energy schemes/ programmes by the Ministry are given in Annexure. Whether you're a homeowner, a farmer, or a business owner, these schemes are designed to help you switch to green energy without burning a hole in your pocket. Combined with state-level top-ups and MNRE guidelines, the subsidy ecosystem has become more generous—but also more complex.
