

# Is a photovoltaic panel sun room considered an illegal building

## Overview

---

Is solar illegal in any state?

No, although lacking access laws can allow Homeowner Associations (HOAs) and other organizations to deny installations, solar panels are legal everywhere in the United States. Permitting and inspection are required before a solar array is allowed to produce electricity on the grid. Generally, local governments require solar installers to obtain a permit for rooftop panels before they can be installed. While federal guidelines provide a baseline, local jurisdictions often implement additional requirements affecting everything from permit costs to HOA. Solar access laws and easements protect homeowners' rights to install and utilize solar panels, ensuring a smooth transition to clean energy. Verify the local regulations, 2.
