

Is it really free to get rooftop photovoltaic panels

Overview

The federal government does not provide free solar panels, but many states and utilities offer incentives that can reduce the cost of going solar. You can install solar panels on your roof with no upfront cost by signing a lease or PPA or taking out a \$0-down loan. When something is advertised as “free,” it usually comes with a few strings attached—free solar panels are no exception. Companies that offer “free” solar panels are typically offering solar lease agreements, so you can reap the benefits of solar-powered electricity without dealing with the upkeep. Free Solar Panels: Are They Really Free?
