

Is the labor cost of photovoltaic panel installation high

Overview

But here's the truth: labor can make up 10%–25% of your total installation bill. That's thousands of dollars just for skilled hands to get the job done. Panels don't install themselves. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. System size, panel type, and labor needs are the biggest cost drivers. The cost of a residential solar installation is a blend of physical hardware, the labor to install it, and a variety of administrative expenses known as soft costs. [Grid-Tie: Which Makes Sense?](#)
