

Latest case of photovoltaic panel theft

Overview

A major theft of 38 solar panels in Manzanillo, Cuba, highlights a growing national problem. Discover the details of these crimes and what authorities are doing to combat this rising threat. According to Spotter Global, theft from solar farms was expected to rise throughout 2024, with growing demand for panels making them both easier to sell and more valuable to steal. This certainly seemed to be the case, as between January and August 2024, there were at least 70 reported offences. The panels were taken from the solar field site off State Highway 150 possibly over the weekend, according to Piscataquis County Sheriff's Office. Credit: Photo by Murray Carpenter. Ever since we had our solar panel system installed in April 2024, one of the most common questions I get is, "Do solar panels really save you money?"

" Honestly, it comes up all the time. In a recent incident at The Villages, a suspect has been apprehended in connection with the theft of solar panels from the new Eastport Town Center.
