

# Lithium titanate battery pack

## Overview

---

The Log9 company is working to introduce its tropicalized-ion battery (TiB) backed by lithium ferro-phosphate (LFP) and lithium-titanium-oxide (LTO) battery chemistries. Unlike LFP and LTO, the more popular NMC (Nickel Manganese Cobalt) chemistry does not have the requisite temperature resilience to survive in the warmest conditions such as in India. LTO is not only temperature resilient, but also has a long life.
