

# Longxiang Solar Power Generation

✓ TELECOM CABINET

✓ BRAND NEW ORIGINAL

✓ HIGH-EFFICIENCY

## Overview

---

In 2013 a station was built with a nameplate capacity of 320 (Phase I), covering 9 square kilometres (3.5 sq mi). An additional 530 MWp (Phase II) was completed in 2015, covering further 14 square kilometres (5.4 sq mi), making Longyangxia Dam Solar Park, with 850 MWp capacity, one of the . The solar power station is integrated with the hydroelectric power station. The park is coupled to one o.

## Longxiang Solar Power Generation

---

### [Power plant profile: Longyangxia Solar PV Park, China](#)

This information is drawn from GlobalData's Power Intelligence Center, which provides detailed profiles of over 170,000 active, planned and under construction power plants worldwide from announcement ...

### [China Longyuan Power Completes Filing of 150 MW Photovoltaic ...](#)

On February 14, the Jiangxi Branch of China Longyuan Power Group under China Energy Investment Corporation successfully completed the filing of its 150 MW forestry-solar ...

### [Longyangxia Dam Solar Park](#)

Longyangxia Dam Solar Park is a large-scale power generation facility in Gonghe County combining millions of solar panels across an extensive area. The complex merges solar technology with ...

### [Longyangxia Hydropower Station plays a crucial role in flood control](#)

In addition to power generation, the station also plays a crucial role in flood control, ice jam prevention, irrigation, and aquaculture development. These photos were taken by CGTN ...

[First PV array of the Longyangxia Solar-hydro Power Station, the ...](#)

With a five-year construction period, the power plant has one of the world's largest reservoirs, its highest dam of 128 meters, and storage capacity of as much as 184 billion cubic ...

**Longyangxia Dam**

In 2013 a solar photovoltaic station was built with a nameplate capacity of 320 MWp (Phase I), covering 9 square kilometres (3.5 sq mi). An additional 530 MWp (Phase II) was completed in 2015, covering further 14 square kilometres (5.4 sq mi), making Longyangxia Dam Solar Park, with 850 MWp capacity, one of the largest photovoltaic power stations in the world. The solar power station is integrated with the hydroelectric power station. The park is coupled to one o...

[Power plant profile: Longyangxia Solar PV Park, China](#)

Longyangxia Solar PV Park is a ground-mounted solar project. The project generates 498,000MWh of electricity. The project got commissioned in December 2013. The solar PV modules ...

### Longyangxia Dam

The solar power station is integrated with the hydroelectric power station. The park is coupled to one of the hydroelectric turbines, which automatically regulates the output to balance the variable ...

### [Longi: The world's largest photovoltaic cell production base with the](#)

On September 28, the high-efficiency single crystal battery project of Jinghe New Town, Longji Lvneng Xixian New Area, was officially put into production, which is also the largest single ...

### [Power plant profile: Longyangxia Phase II Solar PV Park, China](#)

Longyangxia Phase II Solar PV Park is a ground-mounted solar project which is spread over an area of 27 km<sup>2</sup>. The project generates 220GWh electricity and supplies enough clean energy to power ...

[Shanghai Climate Week 2025:LONGi Jiaxing ...](#)

Photovoltaic Power Generation System on the rooftop of LONGi's Jiaxing Production Base
