

Maputo electric vehicles

Overview

After having invested US\$300 million from the World Bank in the extension of the port of Nampula, the State of Mozambique is in the midst of negotiations with Japan, which should soon install a factory for the local manufacture of batteries for electric vehicles. Mozambique is progressively embracing sustainable transportation, the interest in electric vehicles (EVs) is gaining momentum. africa is dedicated to facilitating this transition by offering a seamless platform for Mozambican customers to import and purchase top-tier electric cars. The project will make it possible. On Decem, the first batch of 10 18-meter pure electric buses "assembled" at the CRRC Electric's dispatch center and were ready to be shipped to Maputo, the capital of Mozambique in southern Africa, via the Hunan-Guangdong-Africa Rail-Sea Intermodal Transport Corridor.
