

# Mauritius renewable energy growth

## Overview

---

Mauritius has unveiled a renewable energy initiative worth \$500 million, aimed at rebuilding infrastructure damaged by recent cyclones while positioning the island for long-term economic growth. Prime Minister Pravind Jugnauth announced that the program focuses on large-scale solar and wind. • Decarbonize energy sector to achieve 60% of renewable energy by 2030 along with the phasing out of the use of coal by the same year. • In order to meet the set target, the Central Electricity Board (CEB) has: (a) launched several renewable energy schemes covering a broad spectrum of the. The Mauritius government's 2025 budget signals a strong commitment to sustainable development, with a clear focus on renewable energy initiatives. This comprehensive plan is aimed at enhancing energy efficiency and reducing the nation's dependence on fossil fuels, positioning Mauritius as a leader. In that respect, the UNDP Mauritius and Seychelles Multi-Country Office (MCO), in collaboration with the Government of Mauritius, is spearheading a transformative and pivotal shift towards a low-carbon economy in the country. In 2023, UNDP Mauritius supported the deployment of free rooftop. This report has been prepared to support senior decision-makers in Mauritius—across Government, regulators, state-owned enterprises, private investors and civil society—in making the energy transition both credible and investable.
