

# New Energy Storage Cities Ranking

## Overview

---

(26 September 2024, Changzhou) The Hurun Research Institute released the Hurun China New Energy Cities 2024, a list of the Top 50 cities in China with the highest concentration of new energy companies. This is the third year of the list. Not to be outdone, BYD 's Blade Battery technology has become the Swiss Army knife of storage solutions. Imagine a battery that survives nail penetration tests (yes, they literally drive nails through them) while maintaining 90% capacity after 3,000 cycles. The study begins by examining incentives for renewable energy and energy efficiency. Lithium-ion companies have come out as the top-rated suppliers on a new long-duration energy storage (LDES). Among the cities leading in energy storage initiatives, San Francisco and Los Angeles feature comprehensive renewable energy plans, showcasing significant investments in infrastructure and technology. 3% CAGR through 2030, but who's actually turning volts into value?

Our analysis of Q3 financials and project pipelines reveals some shockingly clear winner HOME / New Energy Storage Plant Ranking 2024: Who's Leading the Charge?

New Energy. Global electricity output is set to grow by 50 percent by mid-century, relative to 2022 levels.
