

# New Energy Storage Company in West Asia

## Overview

---

10 July 2025 - Trina Storage, the energy storage division of global solar leader Trinasolar, has reached a significant milestone with more than 2.4 GWh of utility-scale storage capacity under execution across the Asia-Pacific region (excluding China) as of July 2025. Battery Energy Storage Systems (BESS) are particularly versatile, with applications ranging from short-to-medium-term utility-scale grid support to behind-the-meter commercial and industrial installations. Additionally, technologies like thermal storage and flow batteries are emerging as viable. Clean energy technology innovations are continuously breaking records but to capitalise on them and unlock the gains of the clean energy transition, it is essential to accelerate the investments in grid flexibility and storage. Spanning Australia, Japan. What are the energy storage companies in Asia?

Energy storage companies in Asia are pivotal players in the region's transition toward sustainable energy solutions. As we have discussed previously, several.

## New Energy Storage Company in West Asia
