

New Energy and Photovoltaic Energy Storage Exhibition

Overview

Industry leaders convened in Boston to tackle grid modernization and accelerate the region's renewable energy goals. RE+ Northeast 2026 took place at the Thomas M. Menino Convention & Exhibition Center in Boston from February 3 to February 5. The renewable energy sector is poised for major growth, with installed capacity expected to climb from 507.4 GW by 2030, an anticipated CAGR of 7%. Organized by the Solar Energy Industries Association (SEIA), RE+ Northeast 2026 is a trade fair for innovations in photovoltaics, energy storage and renewable energy technologies.

The "China (Wenzhou) International New Energy & Photovoltaic, Energy Storage Exhibition," abbreviated as CPES, is a leading trade fair in the field of new energy and photovoltaics. Held from February 18-20 at the San Diego Convention Center, IESNA Flagship will provide activities that enhance education, collaboration, and connection beyond the exhibit hall and conference program. "Programming for IESNA Flagship—the first major solar and storage event of 2026—provides professionals with opportunities to network and learn from industry leaders.
