

# No loan for solar photovoltaic power generation

## Overview

---

If you've decided to go solar but don't want to spend thousands of dollars out-of-pocket to have solar panels installed, you can finance your system with a zero-down solar loan, lease, or power purchase agreement (PPA). No-loan solar options are transforming the way homeowners adopt renewable energy, offering accessible paths to solar power without upfront costs or loans. This innovative approach opens doors for those with low or no credit scores, allowing them to invest in. Most homeowners who go solar don't pay cash upfront. Fees apply depending on improvement.
