## Overview

---

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client requirements demand it. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. In addition to custom design, we offer a range of standard free-standing kits from 100-1100W. We design and engineer custom Solar Power Systems for Oilfield Services, Gas Pipelines, Off-shore Drilling. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability.
