

Off-grid type outdoor cabinet for Mongolian photovoltaic energy storage in water plants

Overview

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet. The Outdoor Photovoltaic Energy Cabinet is an all-in-one energy storage system with high strength, which can work under harsh environmental conditions to supply high-performance energy backup and regulation. It is built specifically for outdoor installation and integrates advanced LiFePO₄ battery. Scalable Energy Storage: Ideal for small- to medium-scale commercial and industrial photovoltaic storage, diesel storage, and hybrid systems. It has been designed with the aim of combining solar electricity production and mobility to provide this electricity everywhere around the world. Optimizing the use of renewable energy: Maximize.
